

Certificate of Compliance

Blues, Inc.

Model: Notecard for Skylo - NOTE-NBGLWX **Device:** Integrated Device
Software versions: 11.2.2 (Quectel Module BG95S5LAR08A03)
Hardware versions: 2.5 **NTN Bands:** 23, 255, and 256
Issue Date: April 6th, 2026

Skylo's Non-Terrestrial Network Certification is centered on driving innovation and providing partners and customers with flexibility in wireless solutions. Most importantly, Skylo Certification is designed to encourage the creation of new products and services that deliver the wide variety of benefits made possible by standards-based NTN.

Blues will now be able to market the Notecard for Skylo as "Powered by Skylo" and able to operate on the world's first standards-based NTN network.
